SPARTA

Design Hanns Fritz Hoffmanns

SPARTA | Model 2020 | Model 2021 | Model 2025

German architecture from the early 1960s reflects the bullish mood of the “economic miracle“, the unexpectedly rapid recovery of a country that had been ravaged by WWII. Hoffmanns pursues his vision of a design that combines tradition and modernity to shape the style of the future, representing the ideal of the timelessly present, the perfect form. SPARTA is partly an homage to the spirit of this exciting era and its design, partly a recognition of the craftsmanship that is required to perform such feats. With its high levels of material quality and workmanship, SPARTA guarantees a relaxed sitting experience and radiates a certain flair.
