STACKLINE

Design Delphin Design

STACKLINE | Models 1500 – 1502 without armrests | Models 1505 – 1507 with armrests

STACKLINE presents a contemporary interpretation of the classic contract chair and offers a wide range of design options and functions. STACKLINE is perfect for many areas of use. Thanks to its attractive frame and the comfortable seat and backrest elements made of beech plywood, which can be veneered or fully upholstered. STACKLINE can be connected effortlessly using linking elements, it is also spacesaving and can be safely stacked. The ergonomically designed seat and backrest set blends harmoniously into the frame structure, giving the solitaire its understated appearance. Combined in a row, STACKLINE creates a balanced aesthetic in the room. Whether in open-plan spaces, conference rooms or restaurants – STACKLINE has been designed to meet the demands of everyday use.
